

Hot Air Balloon Drops

YOU WILL NEED:

1. **Cut out the hot air balloons** from your template sheet.
2. **Use these templates as a guide to cut out your shape.** Each balloon needs to be cut from 4 different colours of paper. Make each balloon in 4 different colours.
3. **Cut a piece of thread to use to hang.**
4. **Fold each of your cut out balloons in half.** Glue one side of a balloon, and press one side of another on top. Repeat these steps to make another half.
5. **Lay the thread in the middle,** and glue the two halves together around the thread.
6. **Repeat steps 1-4** with white paper & the cloud template.
7. **Swap between sticking clouds & hot air balloons** down the length of your thread.
8. **Hang up in your window.**

Top Tip...

Try hanging them at different lengths or make them in different sizes

Happiness is like a cloud, staying up there no matter rain or shine.

Anonymous

Give it a go...

Use a needle to thread through pom poms to add some more colour & texture to your drops, or add colourful raindrops under the clouds using leftover paper.

or

Hang your Hot Air Balloon Drops off a wire ring or something similar to make a mobile that will gently sway in the breeze.
